PROFESSIONAL SUMMARY

Full Stack PHP Engineer (Laravel + Vue.js) with 5+ years of experience building scalable web and mobile applications. Strong expertise in Laravel backend development, Vue.js/Angular frontends, MySQL design & optimization, and API integrations (payments, authentication, SNS logins). Experienced in CI/CD pipelines, Docker, and cloud deployments (AWS, DigitalOcean). Adept at team collaboration using Git/Agile, improving system performance, and driving innovation during new product development phases.

EXPERIENCE

Spacepointe / Ekikart – Full Stack Engineer

April 2025 – Present | Remote/Global

- Built backend features using Laravel, CodeIgniter, and Node.js for e-commerce operations (orders, payments, logistics).
- Developed and maintained frontend modules in Vue.js, Angular, and React.
- Designed and optimized MySQL schemas to improve performance and scalability.
- Integrated external services: payment gateways, logistics APIs, and social logins.
- Contributed to CI/CD pipelines using GitHub Actions & Docker.
- Collaborated in Agile/Scrum teams, ensuring timely delivery of user-facing features.

Tech Stack: Laravel, Vue.js, Angular, React, CodeIgniter, Node.js, MySQL, Docker, GitHub Actions

Oxygen Ecommerce Solutions Limited – Mobile Engineer

June 2024 – April 2025 | Lagos, Nigeria

- Developed fintech mobile apps with Flutter integrated with Laravel backends.
- Collaborated with backend engineers on payment & financial APIs.
- Implemented reusable components and UI/UX improvements for scalability.
